**CARTA DE REFERÊNCIA**

The French Red Cross is an international organization supporting the Mozambique Red Cross for the implementation of the Component 1 of a project called "ECODRR", aimed at reinforcing the measures and capacities of disaster risk reduction stakeholders and communities in the Zambezi River delta watershed.

Within this framework, ELOI Company carried out a socio-anthropological study on disaster risk perception in the Zambezi River delta (Lot 1) and a Knowledge, Aptitudes and Practices (KAP) Survey on disaster risk reduction focusing on the communities of the Luabo district (Zambezia Province).

ELOI Company realized this work with professionalism and an acceptable level of quality according to the objectives of the study.
